

Ingredients that go beyond the shell and across the shelf.

Our expertise isn't limited to eggs. The incredibly diverse range of food products offered by manufacturers today requires an ever increasing level of ingenuity to maximize taste and performance. Primera Foods offers an impressive range of gums and starches, as well as rice and tapioca products that provide enhanced dispersion, solubility and functionality. Whether your needs include improved quality or ease of use, you can rely on our innovative practices and exceptional customer service to provide the ideal solution for a broad spectrum of food products.

Gums and Starches Ideal for a variety of applications, our products are dust-free, free flowing and easily dispersible. Because there is no need for pre-blending, hydration or special equipment, these outstanding ingredients have the potential to increase profit margins by reducing labor, production time and cost.

Our Insta-Thick® line of starches and gums offers consistent, dust-free and fully functional ingredients for a wide range of applications. As a lower cost alternative to using single-source hydrocolloids, our Vis*Quick® blends are specially formulated to maximize functionality.

Insta-Thick® Gums

CMC

CMC 9M (medium viscosity)

CMC 10 (high viscosity)

Guar Gum

Locust Bean Gum

Xanthan Gum

Maltodextrins and Syrup Solids Primera Foods offers a variety of corn, rice and tapioca ingredients to meet your specific formulation needs for products ranging from soups and dressings to beverages, ice creams and prepared foods.

Our Malta*Gran® line of agglomerated maltodextrin is perfect for applications requiring a low bulk density form of easily metabolized complex carbohydrates.

Our rice and tapioca ingredients are natural, sulfite-free, hypoallergenic products that offer excellent label perception.

Rice*Trin® maltodextrins and rice syrup solids are key ingredients in many high quality infant formulas, sports drinks, beverages and bakery fillings.

Rice*Complete® retains the natural protein of the original rice flour and functions as an edible adhesive for holding moisture in baked goods or providing viscosity in dressings.

Our Tapi® line of tapioca products is highly versatile. Ideal for thickening, modifying texture or even acting as a carrier for minor ingredients, they are widely used in beverages, dairy products, sauces, dressings and nutritional products.
